

be harvested, is the nice word, or slaughtered or butchered, to use a term such as I would use. Now, I haven't spent a lot of time in the country but I have been in parts of western Nebraska, in the last few months, talking to people and exchanging ideas on politics, economics and hunting animals. I've seen little animals, the carcasses or the remains of them, and the people would explain to me that there are people who go out and just kill animals because they can and leave them there.
